

※胸部外科学術調査集計システムマニュアル  
P3 補足

『臓器がん』のタブ内には  
【胸部外科学術調査】の  
メニューボタンはありません。

The screenshot displays the NCD National Clinical Database interface. At the top, there is a header with the NCD logo and navigation links: '過去の利用履歴', 'ヘルプ', and '利用者情報変更'. Below the header, there is a user profile section with fields for '氏名' (Name) and '施設診療科' (Facility Department), and a '施設診療科切替' (Facility Department Switch) button. The user is identified as 'NCD主任医師(NCD Chief Doctor)'. The main content area features a blue background with a central icon of a clipboard and two buttons: '胃がん' (Stomach Cancer) and '食道がん' (Esophageal Cancer). A blue callout box points to the '臓器がん' (Organ Cancer) tab, indicating that the '胸部外科学術調査' (Chest Surgery Academic Survey) menu button is not present in this tab. At the bottom, there is a '各種通知' (Various Notifications) section with a 'チェックしたものを既読BOXへ' (Check the checked items to the read box) button, and a 'フォローアップ入力状況' (Follow-up Input Status) section with a table showing the status of follow-up inputs.
